

2002 PREP INCIDENTS

July 2002 –

Haz-Mat Response Inc. conducted an exercise at El Dorado Lake... deploying 1300 feet of containment boom. Open-water anchor system and shore points were used to hold the boom in place. The boom was deployed and anchored by using three HMR boats. Product recovery was simulated... the use of skimmers, vacuum trucks, pumps and temporary storage were discussed. Positioning for storage and transports was located... and contact was made with additional resources to confirm current phone numbers for the availability of equipment and personnel.

HMR personnel, at the exercise site, included Ken Simmons, Al Gremmel, Robert McRae, Gary Buckland and Steve Bradley.

Haz-Mat Response, Inc. owned and dedicated equipment was used during the incident and drill.
